

GENERAL NOTES

- Any discrepancy in totals is due to rounding.
- Where non-award data cannot be shown separately, they are incorporated in the undergraduate figures.
- Student numbers relate to the major programs and exclude concurrent minor programs in order to avoid double counting.
- The annual student count is not derived by adding the two half-year columns as this would result in double counting.
- Student load relates to the total load undertaken by a student and includes concurrent minor programs.
- The student load is measured in terms of Equivalent Full-Time Student Load (EFTSL). A standard annual program is equivalent to 1.0 EFTSL.
- The staff load is measured in terms of Full-Time Equivalence (FTE). A full-time equivalence of one is the unit assigned to a member of staff working on a full-time basis for a full year.
- Staff data are effective as at 31 March 2006. All other data are actual data for the year.
- Further data may be obtained on the Statistical Services website at <http://unistats.anu.edu.au>

** 'General' includes general staff with either 'Research Only' or 'Other' functions.

STATISTICAL SUMMARY 2006

The Australian National University (ANU) is proud to stand among the best universities in the world. In 2006, the University was ranked first in Australia and 16th internationally by the Times Higher Education Supplement. Shanghai Jiao Tong University and Newsweek International also rank ANU ahead of its Australian peers, and very high in the Asia-Pacific region.

ANU is a member of the Group of Eight, which comprises the top universities in Australia. Its reputation for distinctive research is widely recognised, and its teaching programs are at the forefront of knowledge and skills.

ANU also has international links with leading universities in the US, UK, Europe and Asia. As the only Australian member of the International Alliance of Research Universities, ANU students and staff have numerous opportunities for collaboration and exchange that contribute to the University's rich intellectual climate.
